

# BEAUTY THERAPY FOR ALL SKIN RADIANCE

## Serenity LED

### HOW DOES IT WORK?

Treatments with "Serenity" use the highly effective and scientifically proven LED technology (Light Emitting Diode) to significantly reduce signs of ageing and improve notably skin texture and complexion and lifts the skin.

### THE RESULTS

A session with "Serenity" also affords an easing of stress feelings and a real sense of well being.

"Led" Treatments gradually and durably repair the skin surface and effectively combat the visible signs of acne, stretch marks and ageing.

### TIMESCALE

Benefits can be seen already after the first session but 5-10 sessions are recommended to provide convincing and long lasting results.

Numerous and serious published clinical and medical studies have undoubtedly proven the effectiveness of the "LED" technology.

**R580 Per session**  
**10 Treatment**

## SPL Skin Rejuvenation:

Light therapy is non-abrasive, non-invasive and does not require injections, which makes it the most effective non-surgical skin repair technique available today. Thanks to the action of OR-Light, and its active stimulation of the fibroblasts, the skin is revitalized and rejuvenated. Collagen production is vividly reactivated causing the skin to be visibly firmed and toned.

We recommend 6 to 8 sessions as a minimum for a treatment program and up to 10 for a complete program and to remove hair permanently.

OR SPL treats the following skin problems:

- Ageing Skins - tightens, lifts & revitalizes
- Rosacea
- Acne
- Broken Capillaries
- Age spots on the face, neck & arms
- Pigmentation / freckles

### Benefits:

- Non-invasive
- No "down time"
- You will see amazing results after the very first session
- Skin will look firmer, complexion more radiant and texture smoother
- With each further treatment, the skin will feel clearer, suppler and will feel alot softer

Prices from R250 up (dependant on the area being treated). Please call us for a free consultation.

### PLEASE NOTE:

Prices are subject to change without prior notice.  
Late arrivals will result in a reduction of treatment time whilst the full treatment fee will apply.  
Cash, credit and debit cards are accepted.  
Please note we have set aside time for your appointment. Failing to arrive or cancel at least 4 hours before affects us negatively.  
To see the amazing before and after pics on the skin rejuvenation, visit our site or e-mail us.  
Right of admission is reserved.  
We uphold high levels of cleanliness in the salon and our basins and nail equipment are thoroughly disinfected between each client.

**Operating times:**  
**Monday to Friday:** 9am - 6pm  
**Saturday:** 9am - 5pm

# BEAUTY THERAPY FOR ALL SKIN TYPES

Laser hair removal  
Skin rejuvenation - Wellbeing - Relaxation

## SPL Laser Hair Removal Services

SPL Laser - SPL stands for Square Pulsed Light - it's from the same family of devices as IPL or Intense Pulsed Light, but an SPL pulse lasts a fraction of a second longer, and the light wavelength isn't as intense, meaning it does the same job but your skin is less likely to be overheated. We recommend 6-12 treatment per area.

- Pain Free
- Safer on the skin due to lower temperature
- Shorter treatment sessions
- 3 times faster than any other competing device on the market
- Guaranteed removal of 90% of unwanted hair in just a few sessions
- Convincing results already visible after the first treatment with 10% to 30% of unwanted hair removed.
- Cost effective when compared to a lifetime of waxing
- Recommended course is 6 - 14 sessions. Please note this is a guideline results vary from person to person
